

Volunteer Opportunity:

Lambeth Money Champions

Can you spare a few minutes to talk to someone struggling with money worries?

Money worries cause huge amounts of anxiety and stress to individuals and their families. People often find it difficult to talk about them and often leave it too late before getting help, so that worries become serious problems.

It's important that we change this, removing the stigma and shame, and making it easier for people to ask for help.

We will provide **free training and support** around a range of money issues to anyone who wants to get involved in our project. If you are a key player in your community or just someone that people can approach, trust and feel comfortable with, we'd love to hear from you.

Offering help as a **Money Champion** will have huge benefits to any of your neighbours, friends, colleagues or customers that need it. Talking to you will be a vital first step towards building confidence, regaining control and feeling more hopeful for the future.
